

LGP RCPP Application Questions

Criteria	Sub-criteria	YES	NO	Don't Know	Written Responses
1. Location					
1a	Is your proposed on-farm project in an identified focus area? Please identify the focus area in the box to the far right (e.g. Bostwick Park, North Fork, Smith Fork, or				
1b	What is the name of the lateral/ditch from which you receive your irrigation water? Please provide your response in the box to the far right.				
2. Water Supply Availability					
2a	To your knowledge, is there adequate available water supply to implement the proposed high efficiency system?				
3. Current Irrigation Practice					
3a	Is the parcel being proposed for improvement currently wild flood irrigated?				
3b	Is the parcel proposed for improvement currently irrigated with gated pipe?				
3c	Is the current irrigation practice being improved through advanced technology (e.g. Improvement in nozzles)				
4. Proposed Improved Irrigation Practice					
4a	Will the improved irrigation method utilize gated pipe?				
4b	Will the improved irrigation method utilize high efficiency sprinkler systems?				
4c	Will the improved irrigation method utilize a high efficiency drip system?				

Criteria	Sub-criteria	YES	NO	Don't Know	Written Responses		
5. On-farm Practice Considered							
5a	Are you interested in incorporating soil health practices?						
5b	Are you interested in utilizing soil moisture sensing technology?						
5c	Are you interested in incorporating automation?						
6. Selenium							
6a	Is your project located in selenium bearing soils? Please see attached map.						
7. Water Use Accounting							
7a	Do you have historical water use or diversion data available for the acreage and/or conveyance system associated with the proposed improvement?						
8. Innovation							
8a	Is your proposed project innovative ? In other words, is the proposed practice currently not considered standard practice but shows promise to expand and further the LGP RCPP natural resource conservation objectives (water quality improvement, water efficiency improvement, soil health and/or wildlife habitat improvement)?						
9. Demonstratability							
9a	Do you agree to share your experiences under/related to the LGP RCPP EQIP Program?						
10. Active Management							
10a	Will you participate in active water management with a specialist?						

Criteria	Sub-criteria	YES	NO	Don't Know	Written Responses
11. Outreach					
11a	Will you participate in post project outreach efforts? For example, host farmer-farmer or public educational events on your property, host NRCS staff education, provide testimony or give presentations in support of on-farm irrigation efficiency, water quality, soil health, ag sustainability, etc.).				
12. Percent of Operation Affected					
12a	What percent of your operation will receive the proposed improvement?
